**BEL Fully Restores Power to Feeder 11 in the Belize District and Works to Restore Power to the Southern Zone**

At 6:10 p.m. today, power supply was fully restored to Feeder 11 in the Belize District, following a power outage which affected that area earlier today.

In the meantime, work crews have identified a damaged insulator on the 69 kV transmission line as the cause of the power outage in Southern Belize. Repairs are scheduled for completion by 11:00 p.m. tonight, after which the power will be restored.

BEL regrets any inconvenience caused by this outage. For more information, contact BEL at 0800-BEL-CARE or 0-800-235-2273.
