BEL Works to Restore Power to Portions of Belize City

At 1:54 p.m. today, power supply was lost to Belize City. Work crews were immediately dispatched to the field where they discovered that a tree that was being cut fell into the transmission line in the area just behind Mahogany Street Extension, causing the power outage.

Since the area is swampy, this has made access difficult and consequently is delaying power restoration. Power supply should be fully restored to all affected areas in the city by 6:00 p.m. today. BEL regrets any inconvenience caused by this outage. For more information, call 0-800-BEL-CARE or 0-800-235-2273.
