BEL Restores Power to St. John's College and Expo

Belize Electricity Limited (BEL) has restored power supply to St. John's College compound in Belize City following an unplanned power outage this morning. At 10:01 a.m. today, power was lost to the compound, on which the Expo Belize Marketplace 2009 is being held.

BEL work crews were dispatched to the location and confirmed that the outage was caused by a burnt service line on the compound. Repairs were delayed, as access to the infrastructure was difficult due to the layout of booths for the Expo. Power was restored at 1:28 p.m. upon completion of works.

BEL apologizes to customers for the inconvenience caused by this power outage.
