Fortis Inc. Contributes \$4,000 towards Julian Cho Technical High School Fencing Project

As part of its ongoing Community Involvement Program, Fortis Inc., the parent company of Belize Electricity Limited (BEL) contributed \$4,000 to the Julian Cho Technical High School in Punta Gorda, Toledo.

During a brief ceremony on the school grounds last Thursday, BEL's Public Relations Officer, Diana Forman, presented a cheque on behalf of Fortis Inc. to the school's Vice Principal, Carmen Lopez.

“After reviewing Julian Cho Technical High School's request for financial support to construct a fence around the school's property and most importantly the emphasis placed on ensuring that the school provides for a safer environment for the children as they learn, we felt sure that this school was most deserving of this contribution,” said Forman.

Faculty and students of Julian Cho Technical High School were on hand to witness the handing-over of the \$4,000 cheque from Fortis Inc. towards the construction of a fence around the school property.

Julian Cho Technical High School is a co-educational institution, providing quality vocational education to some 400 students of the Toledo District.

Since 2002, Fortis Inc. has made annual donations to deserving community initiatives in Belize. The Young Women's Christian Association, Friends of Pediatrics Belize and the Belize Emergency Response Team have been amongst the organizations to benefit from this annual donation.
