BEL Restores Power Supply to San Pedro Town after Completing Repairs to Damaged Underground Cable

At approximately 12:40 a.m. today, power supply was restored to San Pedro Town after repairs were made to a damaged underground cable supplying power to that municipality.

At 4:00 p.m. yesterday, Belize Electricity Limited (BEL) commenced a scheduled power outage to carry out the repairs, however, difficulties encountered forced the Company to extend the duration of the power outage.

Work crews had to be dispatched from Belize City to assist the San Pedro crew with the repairs which were completed shortly after midnight. At 9:22 p.m. the standby generator in San Pedro was used to restore power to Feeder One and parts of Feeder Two in the town.

BEL regrets any inconvenience that was caused by this power outage. For more information kindly call 0-800-BEL-CARE (0-800-235-2273).
