BEL Works to Restore Power to Ladyville Feeder

At 12:45 p.m. today, Belize Electricity Limited (BEL) lost power supply to the Ladyville Feeder, which serves those areas between Mile 1 and Crooked Tree Village on the Northern Highway and between Mile 8 and La Democracia Village on the Western Highway.

BEL work crews have determined that the outage was caused by a trip on the 115 kV transmission line near the West Lake Substation and are currently carrying out necessary repairs to restore power to the affected areas as soon as possible.

BEL regrets any inconvenience caused by this outage. For more information, please contact BEL at 0-800-BEL-CARE or 0-800-235-2273.

END
