## **BEL Restores Power to San Pedro Town After Completing Repairs at San Pedro Substation**

At 3:53 p.m. today power supply was restored to San Pedro Town after BEL identified and repaired a faulty breaker at the San Pedro Substation. This fault caused a trip at the Maskall Substation, located on the Old Northern Highway, which resulted in a power outage earlier today.

At 6:32 a.m. power supply was lost to the municipality after an electrical equipment failure. Work crews were immediately dispatched to the substation to investigate the cause of the failure. Using the San Pedro standby generation, power was restored to Feeder 1 at 7:56 a.m., a portion of Feeder 2 at 8:10 a.m. and a portion of Feeder 3 at 10:37 a.m.

BEL regrets any inconvenience that was caused by this power outage. For more information customers may call 0-800-BEL-CARE (0-800-235-2273).
