Planned Power Outage on Feeder 11 in the Belize District Extends, Due to Equipment Failure

Belize Electricity Limited (BEL) advises that the planned power outage affecting Feeder 11, Zone 1, has been extended to 9:00 p.m. today.

Feeder 11, Zone 1 encompasses Lord's Bank Village, all those areas along the Northern Highway from its junction with the Burrell Boom Road to Double Run including Sandhill Village and Crooked Tree Village.

The delay is caused by equipment failure. During this power outage, work crews are replacing conductors on the distribution system in the area to accommodate an increase in customer power demand. These works will improve service reliability and quality in the area.

BEL apologizes for any inconvenience caused by this power outage.
