

REQUEST FOR EXPRESSIONS OF INTEREST

Consultancy Services for Information Technology Strategy and Roadmap

Belize Electricity Limited (BEL) is developing an Information Technology (IT) Strategy and Roadmap to guide its use of IT in support of the Company's strategic initiatives. The Company is undergoing a comprehensive transformation to stay competitive as its industry evolves, and recognizes the need for robust and innovative IT solutions that align with and underpins its Strategic Objectives.

The IT Strategy and Roadmap will help the Company to understand its current capabilities and identify the gaps needed to meet the Strategic Objectives. It will also chart a path to the future where information technologies not only support traditional administrative activities but amplifies operational productivity, and spurs innovation across core functional areas such as energy generation and dispatching, energy transmission, distribution and customer supply services.

The IT Strategy and Roadmap should include, at a minimum, the following key deliverables:

1. IT Gap Analysis
2. IT Strategy and Roadmap
3. Cloud Strategy
4. Mobile Strategy
5. IT Governance
6. IT Organization Structure
7. IT Platform Integration

A Request for Proposal (RFP) has been developed and the Company is requesting interested parties to fill out the “**Request for Expression of Interest Form**” available at www.bel.com.bz and return via email to bidboxrequest@bel.com.bz no later than **4:00 p.m. (GMT 05:00) on Friday, July 30, 2021**. Interested applicants will be notified no later than **Thursday, August 12, 2021**, subject to the signing of a non-disclosure agreement, will be provided with the full RFP.

Bidders must meet the following the criteria:

1. Must have individuals on staff who have attained academic credentials and certifications in the disciplines related to IT, IT management, IT governance or enterprise IT.
2. Must have at least five years of experience undertaking similar engagements.
3. Have performed and completed at least three projects similar in scope to BEL's project.
