Roadmap 039-231/Grant 431-498/2022
CONTRACT TITLE – Supply of Hardware Materials and Equipment
for the Construction of Electrical Distribution Networks**

Identification number: IEIUVH/BEL/DN/SUP-001/2024

Article 1 Subject

1.1 The subject of the contract shall be:

the supply and delivery, of the following supplies:

Lots	Item Categories	Item Description
1	Pole Structures	Wooden poles are the foundation of the distribution line networks used primarily for supporting overhead electrical cables and other utility lines.
2	Pole Assembly, Guying, Dead-end, Intermediate Hardware	Materials needed to assemble and stabilize and support pole structures. These equipment secure anchoring points for the cable and prevents it from moving, as well as maintaining proper cable spacing, tension, and protection.
3	Pole Mount Transformers	Transformers to manage electrical voltage to safe and usable levels. Transformers step up the voltage at the generating station for transmission, then step it down for distribution at substations and ultimately for our appliances.
4	Overhead Conductor	Electrical conductor materials ensure the unimpeded flow of electricity. They provide a reliable path for electricity to flow while protecting the connection from corrosion, weather, and strain.
5	Streetlight Infrastructure	Street lighting equipment along with necessary materials for assembly to provide illumination during nighttime hours.
6	Connectors, Transformers Accessories & Riser Pole Accessories	Materials needed to ensure connectors are securely joined electrical cables, elevate electrical cables and equipment, and manage cable routing. These materials also ensure a proper electrical connection between the electrical system and the earth for safety.

The **place of acceptance** of the supplies shall be **BEL’s Storage Facility, Ladyville, Belize**. The time limits for delivery shall be 120 days after contract signature by both parties. The Incoterm applicable shall be DAP⁴ at the customs entry points of Belize. The implementation period of tasks shall run from month/day/year to month/day/year.

Transportation from entry point to BEL’s Storage Facility, in Ladyville, Belize will be conducted by a BEL broker.

1.2 The contractor shall comply strictly with the terms of the special conditions and the technical annex.

Article 2 Origin

The rules of origin of the goods are defined in Article 10 of the special conditions.

Article 3 Price

3.1 The price of the supplies shall be that shown on the financial offer (specimen in Annex IV). The total maximum contract price shall be US Dollars (USD).

3.2 Payments shall be made in accordance with the general and/or special conditions (Articles 26 to 28).

Article 4 Order of precedence of contract documents

The contract is made up of the following documents, in order of precedence:

- the contract agreement;
- the special conditions
- the general conditions (Annex I);
- the technical specifications (Annex II [including clarifications before the deadline for submission of tenders and minutes from the information meeting/site visit];
- the technical offer (Annex III [including clarifications from the tenderer provided during tender evaluation]);
- the budget breakdown (Annex IV);
- specified forms and other relevant documents (Annex V);

The various documents making up the contract shall be deemed to be mutually explanatory; in cases of ambiguity or divergence, they shall prevail in the order in which they appear above.

Done in English in two originals, one original being for the contracting authority and one original being for the contractor.
