Deserving Families Countrywide Receive Christmas Hampers from BEL Employees

Employees of Belize Electricity Limited (BEL) have been delivering Christmas hampers filled with essential items to prepare meals during the Holidays to deserving families countrywide.

For the 13th consecutive year, BEL employees provided monetary donations towards Christmas community initiatives to spread cheer and share the spirit of care and giving to others who are in need.

The 46 Christmas hampers delivered yesterday and today by BEL employees in communities across the country contain rice, beans, sugar, flour, butter, eggs, onion, potato, salad cream, mixed vegetables, ham, turkey, apples, soft drinks and gifts for children under 12, among other items.

On Christmas morning, employees will serve breakfast to homeless persons in Belize City and distribute toys to underprivileged children in the urban area.
