## **BEL Employees Distribute Hampers to 120 Families Countrywide**

Employees of Belize Electricity Limited (BEL) are, for the 17th consecutive year, continuing the tradition of distributing hampers to deserving families across the country. The hampers contain the main ingredients for a traditional Christmas dinner; some also include toys for families with children and care packages with toiletries for the elderly.

During yesterday and today, BEL employees have been making deliveries of one hundred and twenty (120) hampers valued at approximately \$150 each, which were made possible through monetary contributions from employees and the Company.

BEL will continue its mission of giving back by hosting Holiday Luncheons and distributing care packages for the elderly, on Wednesday, December 30 at the Octavia Waight Center in San Ignacio Town and at HelpAge in Orange Walk Town. Additionally, lunch and care packages will be distributed to the homeless in Belize City.
