BEL and Hand in Hand Ministries Partner to Provide a Home for 3rd Consecutive Year

A Belize City family of four, today received keys to a new house from Belize Electricity Limited (BEL) and Hand in Hand Ministries (HHM) under HHM's "Building for Change" program. The 16' by 16' wooden house, complete with electrical installations and plumbing facilities was donated by BEL and constructed primarily through volunteer work by BEL employees.

Recipient, Ms. Angela Bennett, is a mother of 3 children ages 8, 9 and 13, residing on Police Street, who expressed, "It's really a dream come true. I am a single mother and I do not have the finance to build a new house. Thanks to God because I will be in my new house for Christmas with my children. A major thanks to BEL and Hand in Hand for making my dream come true."

The family was selected based on HHM's criteria, which requires beneficiaries of donated houses to display a commitment to community involvement and also participate in the building of their homes.

BEL thanks HHM for the opportunity to support this humbling effort. The house is valued at approximately \$18,000 and was constructed over a four-day period.

BEL's community outreach, which focuses on contributions that improve the quality of life in Belize, are continuous.

Tomorrow, St. Mary's Feeding Program will receive a donation to assist with providing healthy meals to children. In December, BEL and its employees will provide food hampers in communities countrywide to families in need and serve luncheon for other deserving persons.
