BEL Continues Restoration of Power to Belize District

At 3:00 p.m. today, power supply has been restored to 93% of the country and 87% of customers in the Belize District, where the majority of damages were sustained to Belize Electricity Limited's (BEL) power system.

BEL's teams resumed works early this morning and are focusing on completing restoration to areas without electricity, scheduled as follows:

Area	Time	Date
Remainder of Ladyville, including Vista del Mar	6:00 p.m.	Saturday, August 6
Bella Vista to Vista del Mar junction	9:00 p.m.	Saturday, August 6
Burrell Boom junction to Sandhill	9:00 p.m.	Saturday, August 6
Haulover to Ladyville	9:00 p.m.	Saturday, August 6
Hattieville and surrounding areas	9:00 p.m.	Saturday, August 6
Burrell Boom junction to Belize River Valley	Update to be provided tomorrow	
Sandhill to Bomba	Update to be provided tomorrow	

While the majority of customers have access to BEL's supply, the Company is aware that several premises cannot connect due to damaged service entrances resulting from the passage of Hurricane Earl.

BEL is therefore offering the services of licensed electricians, contracted by the Company, to conduct inspection and repairs of damaged service entrances. Interested customers are encouraged to request BEL's assistance by calling **0-800-BEL-CARE (0-800-235-2273)** or for more information.
