BEL Inaugurates New San Pedro Branch Office

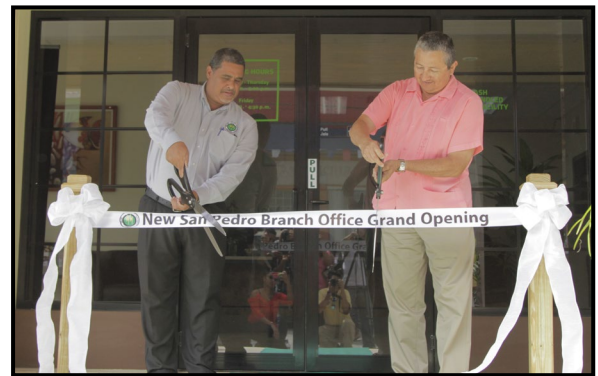

Belize Electricity Limited (BEL) today inaugurated its new San Pedro Branch Office on Pescador Drive with an official ceremony to announce the Company's new strategic direction to expand its offerings to current and new customers.

The Company is now serving over 3,400 customers on the island from the renovated building located at the Substation property. The new office features an open and spacious customer reception area, priority seating and service for senior citizens, a wheelchair ramp and convenient parking inclusive of a designated handicap section.

BEL also announced plans to launch an Electric Vehicle Pilot Project on San Pedro soon, to re-introduce electric transportation and encourage residents to make the environmentally responsible and energy efficient switch to vehicles utilizing lithium-ion battery technology from vehicles using fossil fuel. Public charging stations and payment kiosks will also be installed at the office and other locations on the island.

Today's ceremony is symbolic of BEL's commitment to improving customers' experiences, expanding services throughout Belize and providing safe, reliable and sustainable energy solutions.
