## **BEL Issues Public Advisory for Transportation of Mobile Substation Equipment to Maskall**

Belize Electricity Limited (BEL) wishes to inform the public that our teams are currently in the process of transporting mobile substation equipment from BEL's Westlake Facility (located at Mile 8 George Price Highway) to the Maskall Substation.

The designated route for transportation will be from the George Price Highway to the John Smith Road, up to Carmelita Village, onto the Old Northern Highway to its final location near Maskall Village, where it will be installed to replace a damaged transformer.

The mobile substation equipment is large cargo. We urge all motorists to exercise patience and caution during this period. Safety is our utmost priority, and we apologize for any inconvenience this may cause.
