## BEL Continues Support in Jamaica as Second Team Departs to Assist with Power Restoration

Belize Electricity Limited (BEL) has deployed our second team of Power Line Technicians to Jamaica to continue supporting power restoration efforts following Hurricane Melissa. Our team departed Belize on Sunday, January 4, 2026, to assist Jamaica Public Service Company Limited (JPS), the island's sole electricity distributor.

(Left to right) Owen Nolberto, Gregory Kerr, Jeremy Jex, Paul McCalla, Emry Gill, Brian Gentle, and Andres Catch.

Our BEL team led by **Jeremy Jex**, Technical Supervisor, includes Power Line Technicians **Gregory Kerr, Brian Gentle, Emry Gill, Owen Nolberto, Paul McCalla, and Andres Catch**. They join regional crews from the Caribbean Electric Utility Services Corporation (CARILEC) to restore electricity to communities affected by the hurricane, building on the work of our first team deployed in November 2025.

BEL reaffirms our commitment to regional solidarity and collaboration, demonstrating that through shared expertise and mutual support, Caribbean nations can recover from even the most severe storms.
