Building Shared Understanding: BEL Engages Media in Interactive Energy Workshop

Belize Electricity Limited (BEL) hosted a Media Energy Workshop today at our BEL Corporate Headquarters in Belize City to discuss our plans to a secured, sustainable, and reliable energy future.

Our key experts, Mrs. Sheena Kuylen Simpson, General Manager, Energy Markets, Transmission & Interconnection and Mrs. Dawn Sampson Nunez, General Manager, Employee and Corporate Services & Legal Counsel and Corporate Secretary, along with our Executive Chairman, H.E. Ambassador Lynn Young, led discussions on the Regulatory Framework, the Energy Supply Overview, and the Cost of Power Adjustment (COPA) Mechanism.

The workshop aimed to equip media professionals with technical background, ensuring informed reporting on these key energy topics. Our media partners play a vital role in helping the public understand the complexities of the energy landscape.

BEL remains committed to building a strong partnership with the media and our other stakeholders, as we continue to provide you with safe, reliable, and sustainable energy solutions.
